

## **My school is the best**

**Hello,**

**How are you doing? I am writing to you to tell you about my school. I think my school is the best** in our city. **At first** It is in Gogol Street it is very close to me. **Secondly, it is very large and has a yard. There is modern equipment, a gym with exercise machines and a computer class. And of course there are very good, smart and fun teachers. In my school we teach History, Math, chemistry, biology, foreign languages and other interesting subjects.** I can't say which is my favorite, but i like **English, History, Math and Physics.**

On English lessons, we teach new words ,sing songs , read interesting stories.

I like **History because my teacher tells everything very interesting.**

**And I like Math and Physics because I understand it all.**

I like my school very much and I'm going to stay there until 11th grade.

Denys Ziulkovskii, grade 9
